

Page 2 This Is My Story continued

When I returned home to Belton I was very Thin so my Lovely Mother sent me to the Mechanics Hall across the road to learn Tap & Toe Dancing which I loved very much it built my body & my muscles up & looked forward to it every week had a lovely Dance Teacher & we were on a lot of the stage as we got older each yr. Also in our later yrs we would be in the Fancy Dress Ball at the same Hall & some lovely Ballroom Dancing. During all those yrs we also had some very sad times as my Fathers Health Failed he become very aggressive towards us & my Beautiful Mother Suffered for us. I was very close to my Mother & was always with her whenever she went she is my best memory ever for the Joy & Laughter she gave to all. Also when young my Brother Brian use to take me with him to go Rabbiting over the paddocks he was such a kind Brother - we also went down to the creek & one day I had New Shoes & my Brothers pushed me in & ruined my shoes & made me upset, & I also got in to trouble when I got home. When I turned Ten years old the Family Moved to Maidstone for work for my Father as by now he was Totally & Permanently Impaired but still had to work the rest of his life, by then I got older but went to School at St Johns Catholic School & like to write & read & write essays & enjoyed the Xmas School Plays I also still Tap Danced & learn Ballroom Dancing & had some very good friends. As I mentioned before throughout all the Sadness, I learnt a lot about Love & Laughter & in my yrs onward I found Happiness with my Lovely Daughter who cares about ^{me} & we have Beautiful memories all because of Robyn Lee.
